

# TROPICALIA

## BAND REPERTOIRE

We do not typically work with a fixed setlist, as our performances are tailored to suit each specific event and audience. Our experienced musicians are skilled at reading the crowd and adapting the repertoire in real time to ensure the atmosphere remains vibrant, engaging, and memorable throughout.

You can expect a dynamic performance that appeals to a wide range of ages and nationalities.

Our repertoire is constantly updated with new material, and we often expand our selection as we approach your event date. For a standard two-hour performance, we typically include around 30 songs. With a total repertoire of nearly 90 tracks, we are well-equipped to deliver a versatile and high-energy show that resonates with diverse audiences.

We are committed to providing an exceptional musical experience that complements the unique character of your event. To give you a better sense of what we offer, please find our repertoire categorised by musical style.
